Checklist

So you won't forget any of our choices...

Please use this checklist in order to discuss all options with your customer.

An absolute must

The following options must be considered for this model (please always mention with your order):

Seat design

Seam selection

Armrests

Feet

Functions

Have you explained to your customer the advantages of the following functions?

Semi-motorized relax function

Motorized relax function

Longchair motorized

Longchair with motorized sleep function

Accessories

Have you informed your customers about the selection of our accessories?

Stool

Stool bench

Cushion

Model: Toronto RELAX

Product and ordering information

Frame: Load-bearing parts of the frame made of solid wood and wood materials, surfaces lined with padded cardboard.

Seat: Spring system with permanently elastic steel sinuous springs and an upper-side cover.

Spring core: Spring core seat made of drawn spring steel wire (except stool). Seat covered with textile fleece, PUR foam (min. RG 35) and cotton wool fleece.
(for illustration see „cross sections and ordering information“)

Barrel pocket spring core: More point elastic barrel pocket spring core made of drawn spring steel wire (except stool). Seat covered with textile fleece, PUR foam (min. RG 35) and cotton wool fleece.
(for illustration see „cross sections and ordering information“)

Back: Back made of ergonomically shaped foam (min. RG 25). Cover made of cotton wool fleece. The backrest tension parts are upholstered in genuine fabric, available in leather at an extra charge.

Upholstery: Soft, loose upholstery structure, in which a model-related or design-related wave formation of the covers, as well as seat impressions, are typical for the product. The upholstery will adapt to the body shape or the seat firmness will slightly decrease. Minor differences in the seat firmness in the case of add-on assemblies are due to the design and are therefore no reason for complaint.

Dimensions: Total height: **85-105 cm**
Total depth: **111-176 cm**
Seat height: **47 cm**
Seat depth: **56-106 cm**

Stool / Stool bench: Only available in the seat version „Soft“!
Seat made of PUR foam (min. RG 35). Seat covered with cotton wool fleece.

Model: Toronto RELAX

Product and ordering information

Miscellaneous: All materials used meet the requirements of the DGM according to RAL GZ 430. The appearance of the stitching may vary depending on the fabric, leather and artificial leather used.

The definition of quilted mats and cushions depend on the design and structure.

The appearance of decorative, fell and double seams may vary depending on the fabric, leather and artificial leather used.

Fell seam: The yarn colour is matched to the respective cover material and its colour.

All backrest tensioning parts are supplied as standard in their respective original covers. Available in leather for a surcharge. Material-related information can be found in our fabric and leather flaps on the back with the individual fabric and leather qualities.

All values stated in the price list are approximate measurements in centimetres, determined by the usual measuring method (see RAL-GZ 430) and in unused new condition. Please note that in the course of use of very casual upholstered furniture, particularly the seat height and seat depth, there may be noticeable deviations from the dimensions given here. We reserve the right to make changes in form, colour and construction in the course of technical progress.

Please note orders always as standing in front of it from left to right!

Wooden leg

Notes feet:

001: Foot selection under armrest D and E.
869: Foot selection under armrest D and E.
148: Foot selection under armrest D and E.
Wooden leg colour: Please refer to the wood sample card for the wooden leg colours (incl. special colour oiled oak).
Attention! We charge a surcharge for the wooden leg oiled oak!

Please note that other foot numbers can be confirmed in the order confirmations, for example for long chairs, corner elements and stools.

Model: Toronto RELAX

Seam selection

Standard seam

Contrast seam

Seam selection:

The standard fell seam is adapted to the respective cover material and its colour.

The contrast seam is set off in the colour beige.

Contrast stitching is not possible on the following covers due to the nature of the fabrics:

Cosmopolitan, Craft, Easy Care, Free, Famous, Picasso, Prime, Trend and Velvet.

For all other fabrics and leather qualities, a contrasting seam can be ordered optionally at a surcharge!

It is absolutely necessary to state with contrast stitching or without contrast stitching on your order!

Model: Toronto RELAX

Functions

Semi-motorized relax function:

You can adjust the footrest to extend the leg rest as well as the angle of inclination of the back to your ideal position using the touch switch. In addition, your furniture set has an adjustment option for the headrest (manual). The adjustment of the headrest is achieved by folding up the front back. The position of the headrest can thus be individually adjusted to your wishes.

Motorized relax function:

With the motorized relax function, you adjust the seat, the back and the headrest motorized by touch switch.

Elements with semi- / motorized adjustment are equipped with **touch switches**. The switches are located on the armrest side or in front of it, on the left side (for types without armrest) on the side of the seat cushion.

The respective operating instructions are enclosed with the furniture.

Relax function

Relax function

Relax function

Model: Toronto RELAX

Functions

Longchair motorized:

You can adjust the footrest to extend the leg rest as well as the angle of inclination of the back to your ideal position using the touch switch. In addition, your furniture set has an adjustment option for the headrest (manual). The adjustment of the headrest is achieved by folding up the front back. The position of the headrest can thus be individually adjusted to your wishes. At the touch of a button, the seat slides forward and pulls the lower back with it. The resulting angle of inclination of the back provides the ultimate relaxation position. For the longchair with motorised relax function, the head section can only be operated manually!
depth: 184 - 202 cm. Seat depth: 127 - 136 cm.

Longchair with motorized sleep function:

With the motorized sleep function your longchair turns into a sleeping place. With a touch sensor you can slide the reclining surface forward. The back section lowers. You can manually adjust the headrest according to your wishes. This function offers you the possibility to get into a comfortable, almost horizontal sleeping position. Full depth: 184 – 205 cm. Seat depth: 127 – 130 cm

Longchair motorized

Longchair with motorized sleep function

Order informations

Possible combinations:

It is not possible to combine fixed single types (3-, 2,5-, 2-seater) and single types designed for a relax function (seat width 62,5, 74, 82) directly. These elements have a different frame base that cannot be combined with each other.

A combination of these elements in a furniture set is only possible if the elements are connected with a basic type (e.g. angular corner, corner element, etc.).

Inserting the universal support leg is also not possible for design reasons. Please take the instructions into account when planning your furniture set!

Support legs:

Please consider that the seat elements with 82, 74 and 62.5 cm have additional black support legs! These are visible under the elements!

Deutsche Gütegemeinschaft Möbel & Emissionslabel

Are you demanding? That's fine - we are too!

Therefore, we attach great importance to durability, material quality, longevity, safety and health tolerance!

Because our furniture meets the high standards of the Gütegemeinschaft Möbel e.V., our entire product range is awarded the quality mark „Golden M“ and the highest possible emission class A.

Quality mark „Goldenes M“

Nearly 50 years of research, laboratory tests, field tests, comparisons and scientific exchange is behind the RAL quality mark „Goldenes M“.

- Tested quality according to quality and test regulations RAL-GZ 430
- Guaranteed safety through elaborate laboratory and functional tests
- Healthy living through strict limits for pollutants - sometimes more stringent than the law requires, which were determined in independent test laboratories

The „Goldenes M“ means for the furniture buyer: This is quality, you can rely on.

Emission label

An expert group of the Deutsche Gütegemeinschaft Möbel e.V. has developed in collaboration with leading test institutes such as TÜV Rheinland, the LGA Nuremberg and the ECO Institute an Emission label for furniture.

- The label gives the consumer information about pollutant emission and should protect him from health protect impairments
- The entire range is classified according to these guidelines
- The proof of classifications is based on compliance of the awarding basis with appropriate pollutant tests from neutral testing institutes based on the requirements of RAL-GZ 430 or the Blue Angel's.

Our products meet the highest emission class „A“, which gives us a clear conscience and you a maximum of safety with regards to the emission levels of your upholstery.

Model: Toronto RELAX

blue angel and longlife

Are you demanding? That's fine - we are too!

Especially in the leather area, a responsible approach to the environment and health is very important for us.. Our leathers have been awarded the „Blue Angel“ because we specifically select upholstery leathers for our furniture that are harmless to health.

So that our customers can enjoy their leather furniture for a long time, we now offer the possibility to take out an additional 5-year service guarantee up to 4 weeks after purchasing the furniture.

OEKO-TEX® STANDARD 100 + klimaneutraler
Hersteller

The award offers you the following advantages:

(example label)

- STANDARD 100 by OEKO-TEX® is one of the world's most renowned labels for textiles tested for harmful substances. It stands for customer confidence and high product safety.
- The testing is carried out by independent OEKO-TEX® institutes on the basis of a comprehensive OEKO-TEX® criteria catalogue.
- The test procedure takes into account many substances, both regulated and non-regulated, that could be harmful to human health.
- In many cases, the limit values set for the STANDARD 100 go beyond national and international standards.
- The catalogue of criteria is updated at least once a year and expanded to include new scientific findings or legal requirements.

We are a climate-neutral furniture manufacturer (on balance sheet and through CO₂ certificates)

We can proudly say that we have been awarded as a climate-neutral manufacturer by the DGM. Our actions are always oriented towards the careful use of resources in order to protect and preserve the livelihoods of people, animals and plants. For 3C, sustainability is not just an advertising promise - the development of sustainable products is a matter of course for us.
